How it Works

» SET UP

- 1 Provide some info about your event and prices, and we'll email you login credentials to **access your free account**. You can handle set-up on your own event page and ticket inventory or reach out to our team for help!
- 2 **Set up an event page** for the event where people can buy tickets: Write an event description, add photos, and determine final ticket prices.
- 3 When creating your account, you will need to **enter your bank account** information in order to receive bank transfers.
- 4 *Special circumstances* – set aside tickets for VIPs or giveaways. Make tickets available before the sale date, or set up promo codes for discounts or exclusive access.

» ON SALE

- 5 When someone buys a ticket online, they'll receive a receipt email with a link to **view or print** their ticket(s) that include a unique QR code.
- 6 Track ticket sales, receive notifications, and more through your Dashboard.

» AT THE EVENT

- 7 Use the free **Evvnt Ticketing** app to scan tickets at the door.
- 8 Accept cash or credit cards with the Evvnt Ticketing app.

» AFTER THE EVENT

- 9 You will receive a **direct deposit** within seven days of your event.
- 10 Run reports on your event to see sales or attendance status. Your event and ticket buyer list will always be available for **future marketing** purposes.
